

**Qboard**

**Applications**

- Alfresco kitchen carcasses
- Locker carcasses
- Exhibition display units
- Point of sale displays

**Sizing Options**

- Sheet size: 2440 x 1220 mm
- Use: Indoor or Outdoor
- Thickness: 16mm
- Finish: Black or White

**Properties**

- Water resistant
- Lightweight
- Self-extinguishing
- Easily fabricated
- High quality, Mildew proof

Q-Board Foamed PVC Panels are versatile lightweight panels that have many applications, such as alfresco kitchen carcasses, decorative screens, 3D wall panels, locker carcasses and displays. They are lightweight, strong and water resistant. Q-Board Foamed PVC Panels are an expanded PVC thermoplastic sheet which, due to its closed cell structure, can be converted into component parts by all conventional fabrication methods and techniques.

Q-Board Foamed PVC Panels are suitable for use as internal carcasses in both cabinetry and alfresco kitchens. They cannot be used for structural wall cladding, building facades, balustrades, shelving, doors, railings or swimming pool surrounds. Q-Board Foamed PVC Panels must not be used as a fireplace or BBQ surround as it is a combustible material as with most surfaces exposed to outdoor conditions over prolonged time, some change in colour and appearance of the surface may occur. Q-Board Foamed PVC Panels are not suitable for prolonged direct exposure to UV light.

**Screens & Panels**

*"A Screen for every space and every place."*

## 1 PERSPEX® - CAST ACRYLIC >>>

▶ QAQ Screens & Panels are proud to offer a diverse range of screening solutions using only genuine PERSPEX® branded acrylics. PERSPEX® acrylic is the original thermoplastic material, manufactured in the UK since 1933. Available in a wide range of colours, textures and finishes, only Perspex® offers the confidence of a 10-year outdoor guarantee, along with numerous practical advantages.

### ▶ Features & Benefits

- > Lead Free
- > VOC Free
- > Anti-Fingermark (Frost and Natural Range Only)
- > Worldwide Brand
- > Perspex® Colour 10-year outdoor guarantee \* Conditions Apply
- > Wide range of colours and finishes available
- > Excellent UV, craze and weather resistance
- > A high gloss, hard surface
- > Hygienic - Perspex® is compliant with EU food contact Regulations
- > Excellent environmental credentials
- > 100% recyclable

## 2 PERSPEX® - FROST >>>

▶ PERSPEX® Frost has a double-sided matte surface, which gives an effect similar to that of sand-blasted or etched glass. PERSPEX® Frost is available in subtle shades of clear and opal to fresh pastel colour, right through the spectrum to deep, warm reds and rich greens and blues.

### ▶ Features & Benefits

- > 27 matte colours
- > Perspex® 10-year outdoor guarantee \* Conditions Apply
- > Double-sided anti-fingermark surface
- > Excellent UV and weather resistance
- > Modern contemporary appeal
- > Easy to shape, form and fabricate
- > Retains frosted texture through thermoforming
- > Hygienic - Perspex® is compliant with EU Food Contact Regulations
- > Excellent environmental credentials
- > 100% recyclable

## 3 PERSPEX® - NATURALS RANGE >>>

▶ Inspired by nature, this anti-fingermark, frosted surface comes in a range of solid earthy tones and velvety textures. Perspex® Naturals is the perfect product to bring clean, simple lines and a natural look to any application.

### ▶ Features & Benefits

- > 6 natural colours with the aesthetic appeal of stone
- > Perspex® 10-year outdoor guarantee \* Conditions Apply
- > Double-sided anti-fingermark surface
- > Excellent UV and weather resistance
- > Modern contemporary appeal
- > Easy to shape, form and fabricate
- > Retains frosted texture through thermoforming
- > Hygienic - Perspex® is compliant with EU Food Contact Regulations
- > Excellent environmental credentials
- > 100% recyclable

## 4 PERSPEX® - PASTELS >>>

▶ Perspex® PASTELS; the cooler and softer side of the Perspex® acrylic spectrum. This inspiring compilation of tones will take your imagination beyond its limits with a Pick 'n' Mix of mouth-watering pastel colours to choose from, and two flavoursome finishes in one sheet.

### ▶ Features & Benefits

- > 8 delicious colours
- > Perspex® 10-year outdoor guarantee \* Conditions Apply
- > Unique gloss & textured finish combination in one sheet
- > Frosted anti-fingermark surface on one side
- > Ultra high gloss surface on the other side
- > Easy to shape, form and fabricate
- > Retains frosted texture through thermoforming
- > Hygienic - Perspex® is compliant with EU Food Contact Regulations
- > Excellent environmental credentials
- > 100% recyclable

## 5 PERSPEX® - IMPRESSIONS RANGE >>>

▶ PERSPEX® Impressions adds an extra dimension to PERSPEX® sheet - texture. Perspex® Impressions 'Linear' features a contemporary pattern created exclusively with design trends in mind, with design and texture inherent in the sheet meaning the pattern will not be rubbed off or delaminated.

### ▶ Features & Benefits

- > 9 Pattern Colours
- > Perspex® 10-year outdoor guarantee \* Conditions Apply
- > Unique aesthetics, easy to shape, form and fabricate
- > Great resilience and resistance to wear
- > Depth and texture within the sheet
- > Linear pattern doesn't rub or scratch off
- > Custom colour matching service available
- > Excellent environmental credentials
- > 100% recyclable
- > Hygienic - Perspex® is compliant with EU Food Contact Regulations

## 6 PERSPEX® - PEARLESCENT >>>

▶ PERSPEX® Pearlescent is available in a range of five colours; from the natural end of the spectrum, to stronger gold and platinum metallics.

PERSPEX® Pearlescent is a single-sided product that uses light and shade to good effect, the light is reflected from the surface at different angles due to the orientation of the metallic flakes.

### ▶ Features & Benefits

- > 5 metallic colours
- > Perspex® 10-year outdoor guarantee \* Conditions Apply
- > Contains metallics
- > Reflected light
- > Offers subtle changes in appearance depending on light source and direction
- > Excellent environmental credentials
- > 100% recyclable
- > Hygienic - Perspex® is compliant with EU Food Contact Regulations

## 7 PERSPEX® - SPECTRUM LED >>>

▶ Perspex® Spectrum colours have been specially formulated to give optimised colour performance, with both transmitted and reflected light using white LEDs. With improved diffusion of light and elimination of LED 'hotspots' the range facilitates slimmer designs.

### ▶ Features & Benefits

- > 12 colours optimised for white LEDs
- > Perspex® 10-year outdoor guarantee \* Conditions Apply
- > Brighter reflected and transmitted colours
- > Even illumination
- > Slim light boxes
- > Lower maintenance
- > Environmental benefits and cost savings
- > Custom colour matching service available
- > 100% recyclable
- > Hygienic - Perspex® is compliant with EU Food Contact Regulations

## 8 EUROMIR® >>>

▶ EuroMir® is a mirrored, acrylic product made from Plaskolite's OPTIX continuously processed acrylic sheet. Available in a variety of colours (non-glare and with a cool two-way mirror option), EuroMir® is ideal for slat walls, point-of-purchase displays, casinos, children's toys, cosmetic displays and food service applications.

### ▶ Features & Benefits

- > A range of 16 different colours
- > Cool See-Thru (two-way) option available
- > Non-glare (matte) option available
- > Industries toughest back coating
- > Safer alternative to glass
- > Lightweight and possesses excellent shatter resistant qualities
- > Flexible; can bend around curved surfaces
- > Can be used in the food service industry or areas where safety is of prime concern
