Reg: S23 14/09/2023

QAQ is the largest wholesale manufacturer of decorative screens and panels within Australia.

Specialising in designing and manufacturing screens for Interior and Exterior zones.

We work alongside Architects, Interior designers, landscapers and builders to deliver visually appealing commercial and domestic fit outs.

As a result we have a strong national and international distribution network.

We are Australian made and owned business located in Derrimut, Victoria (20km West of Melbourne).

Our mission is to provide visually aesthetic and cost-effective solutions to the public through our wholesale network.

"A screen for every space & every place"

Projects

Valencia - Aluminium Composite Material (ACM)
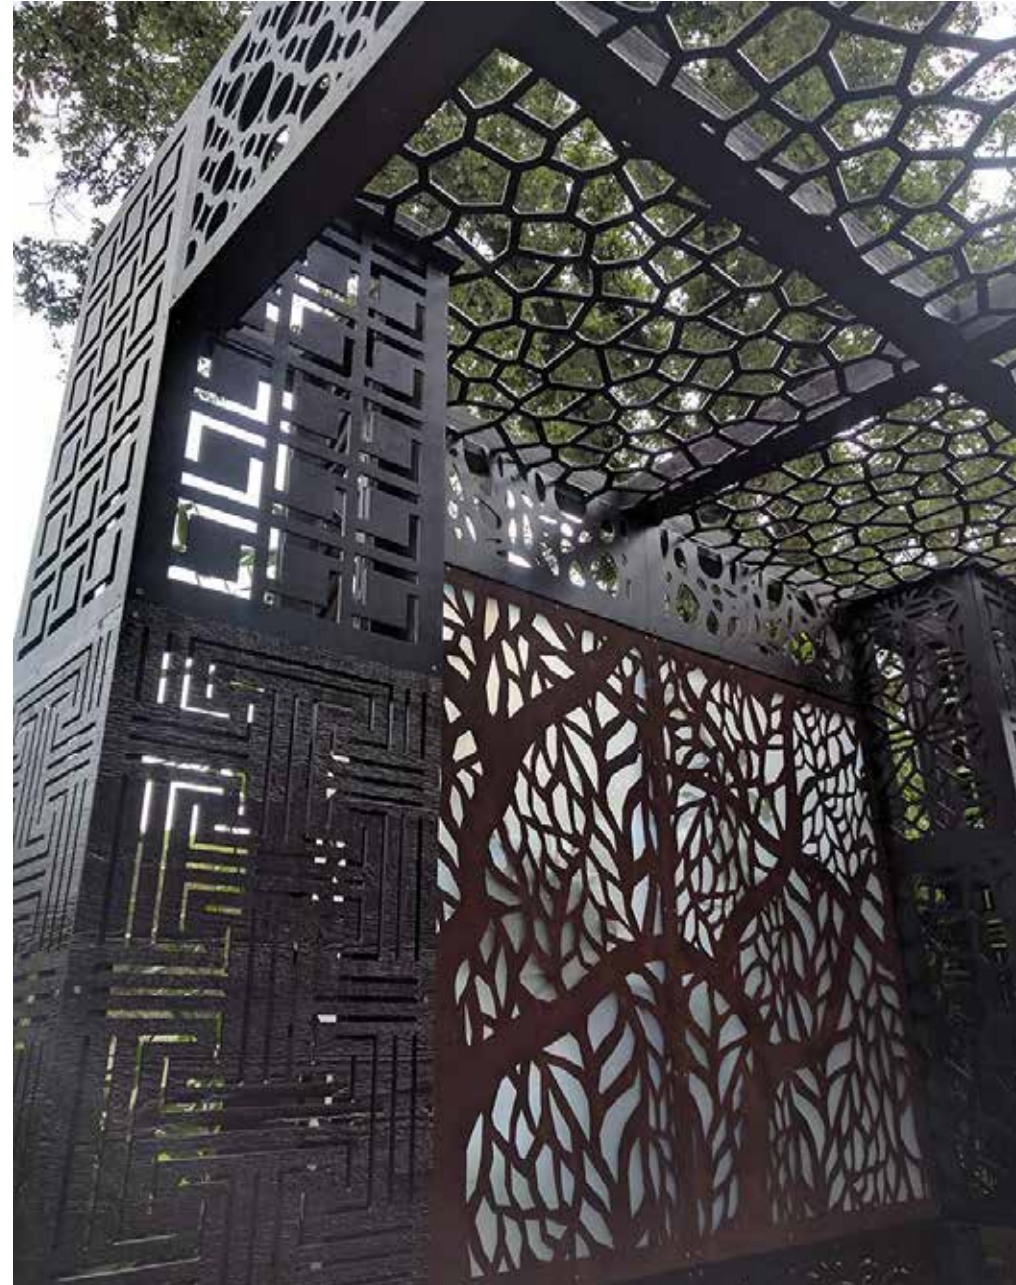

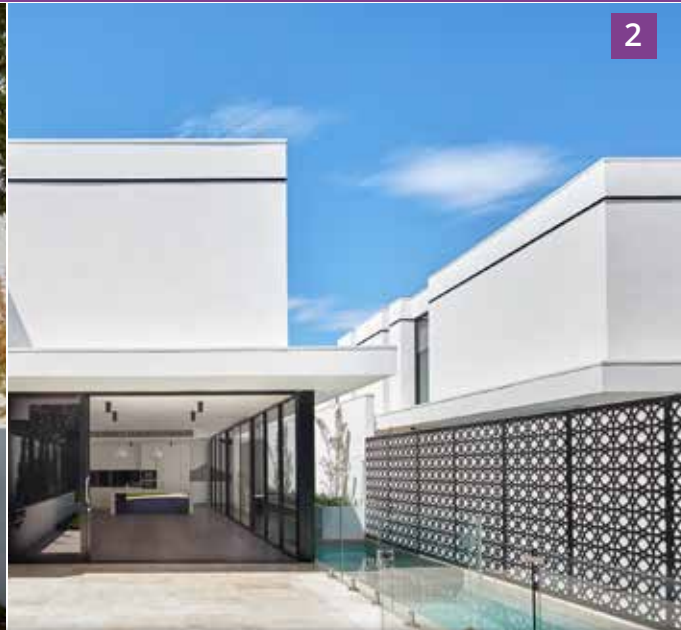

Valencia design, which features a 60% block-out rating. The Geometric Structure of the Valencia has been modularly cladded to create a continuous contemporary facade. *(Images courtesy of Markscon)*

Pretoria - Australian Compressed Hardwood

Pretoria design, which features a 70% block-out rating. Screens were designed to give privacy as well as landscaping flair. *(Images courtesy of Love it Landscapes)*

1 Suva / Cayman / Washington - Australian Compressed Hardwood

2 Rome - Australian Compressed Hardwood

3 Cayman - Australian Compressed Hardwood

4 Cairo - PVC (Q-Board)

5 Rome - Aluminium Composite Material (ACM)

6 Madrid - Australian Compressed Hardwood

7 Forest- custom - Australian Compressed Hardwood

8 Washington - Aluminium

9 Eden - Australian Compressed Hardwood

10 Babylon (1) - Aluminium Composite Material (ACM)

Screen Materials

AUSTRALIAN COMPRESSED HARDWOOD (WEATHERTEX)

Weathertex Compressed Hardwood comprises of 97% timber and 3% Natural wax. It comes in two different finishes, Smooth and Woodsman (Treelike Emboss). For added UV protection it can be sealed in Jarrah or Charcoal Finish. Weathertex comes with a 7 year warranty against rotting splitting and cracking.

| Smooth Raw | Smooth Sealed Jarrah | Smooth Sealed Charcoal | Woodsman Raw | Woodsman Sealed Jarrah | Woodsman Sealed Charcoal |

Max size: 3600 mm x 1200 mm   **Thickness:** 9 mm   **Finish:** Smooth / Woodsman
Application: Indoor or Outdoor

CORTEN (RUSTING STEEL)

Corten is a high-strength steel that when exposed to the weather forms a natural surface rust.

| 0 days | 2 Weeks | 1.5 Months | 6 Months |

Max size: 3000 mm x 1200 mm   **Thickness:** 1.6 mm/2 mm/3 mm   **Finish:** Raw
Application: Indoor or Outdoor

ALUMINIUM

Aluminium is lightweight and resistant to rust, it has a beautiful silver sheen, though it can be powder-coated in a number of colours.

Max size: 3000 mm x 1500 mm **Thickness:** 1.6 mm/2 mm/3 mm   **Finish:** Raw/Powder coated
Application: Indoor or Outdoor

ALUMINIUM COMPOSITE MATERIAL (ACM)

Aluminium Composite Material is a lightweight composite material, consisting of two pre finished aluminium skins over a core.

Max size: 3600 mm x 1200 mm   **Thickness:** 3 mm   **Finish:** 50 + colours
Application: Indoor or Outdoor

PVC (Q-BOARD)

PVC is a lightweight foam core material, which is solid on the outside and soft on the inside.

Max size: 2400 mm x 1200 mm   **Thickness:** 10 mm/16 mm   **Finish:** Black or White
Application: Indoor or Outdoor

MEDIUM DENSITY FIBERBOARD (MDF)

MDF is a dense, smooth wood with no recognisable surface grains. Its smooth surface makes it ideal for varnishing or painting.

Max size: 3600 mm x 1800 mm   **Thickness:** 18 mm   **Finish:** Raw or 2- Pack Polyurethane Painted
Application: Indoor

ACRYLIC OR PERSPEX

Acrylic and Perspex are type of plastic that is lightweight and Impact Resistant

Max size: 3000 mm x 2000 mm   **Thickness:** 3 mm/6 mm
Finish: Clear/ Transparent, Satin Finish, Mirror (16 Colours), Solid Colours, Embossed, Spectral LED – Light Diffuser for Backlighting
Application: Indoor or Outdoor

- As a natural product, timber expands or contracts during different weather conditions. Therefore we recommend a gap of at least 2 mm be allowed between screens to allow for natural movement.

- QAQ Screens are **NOT A STRUCTURAL PRODUCT** and should not be used for load bearing or reinforcement. All installation should be onto an appropriate frame or backing.

- We recommend our screens are secured around all perimeters to a frame or backing at minimum 300mm centres, with fastenings no less than 12 mm from the edge of the screen. If preferred, the screens can be glued to the frames and clamped untill cured, using high grade, waterproof builder's adhesive.
